EDMONTON, ALBERTA, FRIDAY, OCT. 5, 1951

Subscription \$2.00 Per Year

## BEISEKER AND DISTRICT NEWS

Mr. and Mrs. Tony Schwartzberger and children, spent the week-end in Beiseker.

Miss Kay Smith spent last week-end visiting with Mr. and Mrs. Weisenberg.

Mr. Stanley Schmaltz was home for the week-end.

Mr. Chris Schmaltz has made a speedy recovery after his recent operation.

Joe Bash is still confined to the hospital taking treatments. He suffered a painful accident to his hand while working on some farm machinery.

The community is sorry to learn of the death of Mrs. Mike Schleppe of Acme, which occurred on Saturday, Sept. 29. Burial took place in Calgary on Tuesday, Oct. 2nd.

Mrs. Schleppe is a sister of Frank and Jack Seitzler.

With the warm weather here again, swathing is underway and some expect to combine in a few days if the good weather continues.

The local hunters report that ducks are plentiful in the district and have been getting good bags with the help of good dogs.

Mr. Ray Krenzel has taken over the Pool Elevator in Keoma and moved his family there from Calgary on Sunday.

The district is sorry to learn Mr. Matt Schmaltz has been confined to bed for a few days with the flu. He is wished a speedy recovery.

TERRY KENNEDY, right, of Georgetown, Ont., had 1,000 volts pass through him when he touched a wire in the town's hydro-electric station. He was burned on the face, hands and neck, but was otherwise unharmed by tremendous bolt.

### Roads To Be Improved

BEISEKER.—The Municipal grading crew moved into the Beiseker district after a long delay on account of the abnormally wet summer. They intend to improve some of the school van roads, it is also expected a graveling outfit will move in to the Beiseker gravel pit west of town to gravel some of the district roads, as well as some of our town streets. This will be done in the next week or two.

### Carbon Students Tour Edmonton

LEVEL LAND.—Twenty-three students from the Carbon High and Junior High school, spent three days in Edmonton. The students toured the University and parliament buildings. Mr. Appleyard, the principal of the school, and Mrs. Prowse, chaperoned the group.

The students took in a football game between Edmonton and Regina, Regina taking the win of 24-18. All in all everyone had an enjoyable and interesting time.

The best "catgut" comes from the intestines of lean, ill-fed sheep, hogs or mules.

### City Man Has Phone Installed In Car

There's one Edmontonian who won't be bothered with his phone ringing while he's in the bathtub. His phone's in his car.

T. W. Hall, 11135 72 Ave., has had a two-way radio telephone set installed in his private car. The set has a range of 30 miles and was installed by Alberta Government Telephones.

Largest users will probably be oil companies, doctors and truckers.

### More Bank Robberies In Quebec Lately

MONTREAL, Que.—(BUP)—The Canadian Bankers Association reports Quebec has had more bank robberies in the last six years than any other seven provinces.

Arthur Rogers, secretary-treasurer of the Association, said there were 108 bank holdups in Quebec from 1944-50 compared with 132 in the rest of Canada.

## ROCKYFORD NEWS IN BRIEF

Mr. and Mrs. Frank Hughes had their baby daughter in the hospital but she is home again.

Mrs. Fred County has been visiting her sister-in-law at Rimbey. A duck which had been banded in Washington, D.C., was shot by Billy Hendricks on his farm.

Mr. and Mrs. P. C. Geeraert have moved into their new home in town.

Mr. and Mrs. Joe Kolhes from Oakland, California, have been visiting their friends here.

Mr. J. H. Kroon has left the employment of the Rockyford Meat Market and has taken a position with the Standard Coal Mine.

Mrs. B. Pomroy is away from school because of sickness and is being replaced by Mrs. Mackay. The six dolls to be raffled at the Halowe'en dance are on display in a local store window. One ticket will give you six chances to win a doll.

An excellent potato crop was

grown on the Kenworthy farm. One hundred bushels were grown on a quarter acre of land.

Mrs. R. M. Durant was chosen leader of the United Church Choir.

Local hunters report that ducks and partridge are more plentiful this year than they have ever been. Few pheasants have been seen.

### Boy Scout And Girl Guide Clubs Organized

ROCKYFORD.—The Boy Scout and Girl Guide groups have recently been organized. The Boy Scouts are under the leadership of Art Dunsmore with Merlyn Veiker assisting. The Girl Guides are led by Mrs. Roy Bragg assisted by Mrs. Jerry Cammaert. The Cubs are led by W. Fulton with Ken Mitchell assisting.

The Brownies are led by Mrs. K. Hendry assisted by Mrs. A. Easter.

The local association of the Girl Guides consists of Mrs. E. M. Wilson, chairman; Mrs. Frank Dunsmore, secretary; Mrs. Frank Ewing, treasurer; Mrs. R. M. Durant, badge secretary and Mrs. S. McLukan, Mrs. Frank Kuyten, Mrs. Emmett Feser and Mrs. W. Fulton.

The Guides and Brownies have a combined membership of about 35. They meet every Saturday.

The local association of the Boy Scouts consists of Jerry Cammaert, chairman; W. Fulton, secretary; Art Sangster, treasurer, and Frank Kuyten, Francis Kenworthy and Emmett Feser.

The Scouts and Cubs have a combined membership of about 38. They meet every Friday evening.

### UNITED CHURCH

Services Every Sunday  
Rosebud—10 a.m.  
Carbon—12 noon  
Rockyford—7:30 p.m.  
All Sunday schools—11 a.m.  
M. Galbraith, minister.

## LEVEL LAND NEWS BRIEFS

Clifford Schaber, who completed his grade twelve at Canadian Union College, has left this district to attend Emmanuel Missionary College, Barrien Springs, Michigan. He will major in Agriculture.

Mr. and Mrs. Sam Leiske and Emil Sulzle were week-end visitors at Lacombe.

Joyce Lang and Helen Welch of Calgary were visiting in this district over the week-end.

Four cars left the S.D.A. church Sept. 29, with twenty-six young people, bound for Drumheller. There they distributed missionary leaflets. One carload went to Carbon, having the same objective.

The S.D.A. Dorcas ladies have been working in the church basement, preparing another warm quilt for their fall sale.

Mr. Marvin Olke who has been working for Sam Leiske the last few years, is leaving the district to take up a new job in the Mental Hospital in Red Deer.

Daunavan Buyer, of this district, left Monday for Edmonton, where he will major in Agriculture in the University of Alberta.

Mr. and Mrs. Gordon Sulzle of Red Deer, visited in this district over the week-end. Gordon was employed at the Mental Hospital in Red Deer. Mr. and Mrs. Sulzle left September 29, for the south, and Gordon plans to attend Pacific Union College in California.

A very interesting program was rendered September 29, at the S.D.A. church. Mrs. F. A. Tetz, superintendent of the Cradle Roll and Kindergarten Divisions, and Mrs. Henry Stern of the Primary and Junior Divisions, had the program uniquely arranged. It was enjoyed by all. Keep up the fine work ladies.

Mr. Haver and her mother were visiting the S.D.A. Church Sept. 29.

### How Are We Doing?

BEISEKER.—Moe Bettin writes from Creston that their harvest is 95% completed and crops are very good.

He says potatoes are so big they have to use bulldozers for digging and sent a picture showing pumpkins as big as buffalo. Well we can't beat that, but we have wheat kernels as big as crabapples.

### First Barley Shipped

Mr. Matt Schmaltz shipped the first car load of 1951 barley out of Beiseker which was graded malt. This went to the Canadian Malt-ling Co. in Calgary. Maltling barley can be shipped above the regular quota.

### First Car Of '51 Wheat Shipped

BEISEKER.—The first car load of 1951 wheat was shipped last week by the National Grain Co. Mr. Val Schmaltz, the buyer, stated this was all number 3 wheat.

DAIRY FARMING has taken on a new trend, as anyone can see by the picture above. Farmers are now using "loafing pens" and "milking parlors." Cows stay in the loafing pen all year, are fed on hay stored in silos. Increases in milk production have been recorded and experts forecast an ultimate benefit to Mrs. Consumer who gets her milk in bottles.

## Your Life Worth \$8,000 If Killed In Plane Crash

MONTREAL, Que.—(BUP)—You are only worth about \$8,291 if killed in a plane crash. Maybe not even that much.

That is according to the International Civil Aviation Organization which meets next week at Madrid.

Purpose of the Madrid meeting is to overhaul regulations set down 22 years ago in Warsaw. The Warsaw convention took good care of airlines in many ways. Chief among them was that no person could sue an airline for more than \$8,291 in the event of a relative's death in an air crash.

Regardless of the victim's income, the limit set was the same for everyone. Some persons feel it is time an adjustment was made.

Organizations arguing for a change say many travelling the airways today earn at least \$10,000 yearly. A man 35-years-old thus

is potentially worth at least \$250,000 to his family should he work the normal 25 years more that most men do.

However, the man's family would collect not more than \$8,291 from the airline should he die in a plane crash.

The Warsaw convention provided dozens of legal methods whereby an airline was freed of all responsibility for a crash. One such loophole provided requires the company prove it merely carried out all normal, resignations before the flight took off. Another would let the airline escape by proving a crash was the fault of the plane's crew.

## MICKEY ROONEY HAS MAN-SIZED TEMPER, ACTRESS-WIFE DECLARES

HOLLYWOOD (BUP)—Actress Martha Vickers testified in a divorce suit that her diminutive husband Mickey Rooney had a man-sized temper and spent most of his married life away from home.

The 25-year-old actress told a Hollywood judge "he had a very bad temper. He seemed to look for reasons all the time just to pick a fight—simply for an excuse to leave the house."

Thirty-year-old Rooney married the actress June 3, 1949, and their stormy marital life was marked by several separations.

## EDITORIAL PAGE

### You're Known By Your Friends

The British Labor party members are in the same quandary over unwanted friends as were the members of the Canadian C.C.F. party in the last election. The Communists have announced that in the coming election in Britain, on October 25, they will give their support in constituencies where they have no candidate to the Labor government candidate. These unwanted supporters are likely to prove a serious embarrassment to the smooth running of the campaign. The electors are bound to say: "Birds of a feather flock together!"

It will be of little use for Labor to protest that they don't want this support from the out-and-out reds. Like the C.C.F. in Canada, the Labor party in England stands to the left of the line of demarkation. They may protest that they are pink and not red, but the commonsense electors want something more radically different in colors than pink and red. Pink at anytime is only washed-out red, or faded red!

The desperate efforts of the Canadian pinks to convince the electorate that their pink had no shade of red in it, before the last election, when the Labor Progressives were broadcasting their intention of supporting the Socialists at the polls can easily be recalled.

But it is not likely that the combination of red shades from pink to purple, will fool anybody in Britain. Everybody knows a Communist at a glance, but it is not so easy to discover a Fellow Traveller.

### By-Passing \$100,000

For two years, autoists and truckers between Edmonton and Redwater and other points north of Gibbons, besides the local residents, have been patiently awaiting the completion of a new bridge which crosses the river just one mile north of Gibbons. It will connect two stretches of well built-up highway grades and enable drivers to avoid the tortuous trails through the sand hills.

Well, the bridge is finished now. It has taken a long time—longer, we think, than it should have taken, and with luck it may be in use sometime this fall, if it hasn't been officially opened by the time this gets into print. It cost \$100,000 and should be good, and we believe it is good.

Comes the dawn of a new era for drivers in this area—but hold it! The government has decided not to use their new bridge for the paved road. Surveys have already been made to build a complete new highway just a few miles west of the present road and an entirely new bridge will be required. The recently finished \$100,000 bridge will be bypassed by all except local traffic.

We realize there is a great deal of rivalry between Bon Accord and Gibbons and each, naturally, wants the highway to run nearest their villages. But the highway route should have been definitely settled before any expensive bridge building was started.

### Do It Well

One of England's most treasured antiques is a bit of old iron shaped something like a black saucepan without the handle. Edward the Black Prince wore it when he went into battle. When he died in 1376 the crested helm, together with other insignia was hung in Canterbury cathedral over his tomb.

It is believed the helm was fashioned by an armorer living in London, and time has proved that this ancient knight of the anvil and hammer did his work well.

The moral of this is that all work done well is much better than work that is skimped, whether in commerce, industry, trade or learning. There is need these days for the teaching of the old adage in the schools, "If a thing is worth doing at all, it is worth doing well."

### Note and Comment

Private capitalism will work well when private capitalists work well.

We happen to be a little suspicious of these "do-it-yourself" books.

## Homesteading Is Not Past

By T.B.W.

The day of pioneering in Canada is not altogether gone, despite the statements of news commentators to contrary. In northern Alberta there is an area of 3,000,000 square miles of good agricultural land, just 300 miles north of the city of Edmonton. This fertile stretch of land, considered to be non-agricultural territory not many years ago, includes the small settlements of Keg River, Paddle Prairie, and Fort Vermillion in all of which there are scattered farms today.

The results of experiments made at the Fort Vermillion sub-station of the department of agriculture are amazing to the agriculturists living in the southern regions of Alberta. In July, 1951, crops of wheat, barley and oats gave indication of producing average respective yields of 35, 40 and 75 bushels per acre this season. And the production of forage seed and fodder has become increasingly popular in the area.

Alfalfa is a firmly established crop for seed purposes, while a mixture of brome and alfalfa is a superior hay crop in this northern region.

During the summer months, the long duration of sunlight is a major factor contributing to the rapid rate of growth. Bush fruits are grown successfully in the home garden, and success with tree fruits has been had at the experimental station. Hardy varieties of apples, crabapples, plums, and cherry-plum hybrids produce good quality fruit recently.

As in other farming localities, the horse population is giving way to the mechanized methods of farming. Cattle and swine are numerous on the small farms and most of the coarse grain is consumed by the livestock, and marketed as animal products.

There is a bright future yet for the homesteader in Alberta's northern areas and, as in the past, many hundreds of pioneers have made their first start on the road to prosperity by homesteading on government land, so it will be in the future in this rich country.

## Old Age Pensioners Anxious

Old age pensioners in Alberta are a bit disturbed today over the uncertainty of their position when the new dominion pension set-up comes into effect next January. There is no definite information yet as to what attitude the provincial government will take toward the continuation of payment of \$10 extra they have been receiving from the Alberta government. This extra amount given on a no means test basis is one of the sensible and humane acts of the government, in view of the high cost of living today. But nobody knows definitely if it is to be continued when the dominion takes over care of the 70 years and over pensioners.

The Alberta government remains unnecessarily silent on its plans in this matter, when a word from the premier would solve the fears and worries of these aged citizens. At present there are about 45,000 residents of Alberta who are over the 70 age and could qualify for the old age pension benefits, and about 38 percent of these are now in receipt of the present pension paid by both the dominion and the province. It is considered possible that an additional 28,000 of the older residents will apply for the \$40 a month pension.

The provincial government so far has stated only that its policy with regard to old age pensions cannot be clarified until full details from the dominion are available, and then the legislature will consider its position early in the year. In the meantime, the government could, if it wished, make it clear that the old age pensioners of 70 or over will not suffer loss in their pension from dropping the extra \$10 monthly payment.

It is not necessary for the legislature to meet before a decision is made. The government can do as it has done on many occasions of less importance than this, pass orders in council covering the pensions. With the overwhelming majority it now enjoys, and the loyal support it is given by its members, the government would have no difficulty in gaining the needed legislative approval of its act.

## Calls for Albertans To Stress Unity of Province

"It is time that we in Alberta become Albertans and not  
Calgarians or Edmontonians." This is the theme of a talk  
being given all over Alberta by Tommy Steele, assistant  
director of publicity for the Department of Economic Affairs.

To illustrate his point Steele  
takes the listener on an imaginary  
helicopter trip of Alberta.

From the pottery and flour in-  
dustry at Medicine Hat he quick-  
ly flies on to Taber to point out  
the year-old \$5,000,000 sugar fac-  
tory there. Then on to Lethbridge,  
the irrigation capital of Canada,  
which grows and cans a tremen-  
dous percentage of Canada's peas.

From the coal mines at Leth-  
bridge he sweeps on to the Crow's  
Nest Pass coal mines, to the St.  
Mary's Dam, a multi-million dollar  
irrigation project which will sup-  
ply water as far east as Medicine  
Hat.

After he leaves the south,  
Mr. Steele takes the listener  
to Drumheller, also the centre  
of a tremendous coal industry.

After Drumheller comes Cal-  
gary, the Stampede City. During  
the last five years Steele points  
out, 94 plants with capital ex-  
penditures of \$28,000,000 have  
located in Calgary. These plants  
employ over 1,800 persons and  
have an annual payroll in excess of  
\$4,500,000. In the same period  
32 warehouses, costing over \$4,-  
000,000, have been built.

Red Deer, Mr. Steele points  
out, is in the centre of a good  
agriculture area, and he continued  
its development is just beginning.

Wetaskiwin is also just at the  
birth of its industrial development  
according to Mr. Steele. He claims  
that many secondary industries,  
wanting to use Alberta gas, will  
settle there because they will find  
better locations and facilities  
there in their particular cases.

From there he flies over the  
Peace River and Lloydminster  
areas, ending up at Edmonton.

Edmonton, he explains, had the  
beginning of its phenomenal  
growth with the war and the dis-  
covery of oil at Leduc in 1947.  
Since then three oil refineries  
have been built on its outskirts  
and a new chemical plant is now  
under construction in the north-  
ern city.

Other Alberta resources out-  
lined by Mr. Steele are power and  
salt. The oil sands are also fea-  
tured in his talk.

## CIVIL DEFENCE TO BE 'CD'

Abbreviations are the  
vogue these days and the  
Alberta civil defence organi-  
zation wants to keep up with  
the times. It was announced  
today the official abbrevia-  
tion for civil defence will be  
CD.

## Natural Gas To Flow Into Banff

CALGARY—Natural gas from  
the Jumping Pound field west of  
Calgary will be turned on next  
Thursday at Banff.

The announcement was made  
today by R. C. McPherson, gen-  
eral manager of the Canadian  
Western Natural Gas Company.

He said between 250 and 300  
consumers had already been con-  
nected to the distribution system  
and the work of connecting the  
remaining 700 consumers would  
be done as quickly as possible.

The 61-mile transmission line  
between the gas field and Banff  
will carry about nine million cubic  
feet of gas per day during the  
winter for Banff consumers and

An eight-inch line from Jump-  
ing Pound to Exshaw is already  
in operation. The line from Ex-  
shaw to Banff is six inches in  
diameter.

## Five Towns Fight Gas Rate Increase

RED DEER — Representatives  
of five towns in Central Alberta  
will meet Wednesday in a con-  
tinuation of efforts to avert a  
proposed increase in natural gas  
rates.

The meeting in Red Deer will  
be attended by delegates from  
Camrose, Wetaskiwin, Ponoka,  
Lacombe and Red Deer.

COMPETITION proved too tough for two Vancouverites, Bill Mawhinny and Lawrie Roland, who are seen deep in conversation after their participation in an international golf match at Bethlehem, Pa., which U.S. team won 10 matches to two.

### New Gospel Sent To Backward Lands

MONTREAL, Que.—(BUP)—Churches are not the only groups sponsoring missionaries to backward countries according to Glen

A. Gilbert of International Civil Aviation Organization.

We said delegates also carry the "gospel" to foreign lands, a "gospel" of increasing prosperity through development of that country's potential air resources.

Gilbert said that ICAO "Mission-

## Doctors Perfect Device To Study Human Body

STANFORD, Calif.—(UP)—A teaching doctor at Stanford University and a research engineer from Portland, Ore., have completed the first phase of a project that may be important to medical education.

The project is a complete atlas of human anatomy in three-dimensional kodachrome transparencies, each keyed to a matching diagram drawn to scale.

The work is being carried out by Dr. David L. Bassett, associate professor of anatomy in the Stanford medical school, and his colleague, William B. Gruber, inventor of a modern stereoscope known as the "View Master."

They have finished the painstaking task of photographing 238 related dissections of the human central nervous system.

It has taken them two years to

complete this section of the stereoscopic atlas and it will be published early in 1952. It will take them six to eight years and some 2,000 dissections and photographs

before this project is finished.

A stereoscopic atlas of human anatomy is not a brand new idea. Bassett points out that the University of Edinburgh published such an atlas before the turn of the century. There have also been other attempts to make use of stereoscopic views as a teaching method.

Since the end of the Second World War jobs have been found in Canada for 80,000 disabled and physically handicapped persons.

Now You Can Get ...

## Car Owners! DODGE HAS THE ANSWERS

to questions you  
frequently ask

**Q** Should I use a standard or premium gasoline in my car?

**A** That depends on the make of your present car. All new Dodge engines are designed to operate with maximum performance and top efficiency with ordinary gasoline.

**Q** How can I judge the amount of choking my car requires to start under varying weather conditions?

**A** Unfortunately, you cannot. But new Dodge cars are equipped with an Automatic Electric Choke which makes starting easier—particularly in cold weather, and avoids wasteful over-choking.

**Q** If my foot brake should fail, will my parking brake still operate?

**A** Yes, if you own a Dodge. The Dodge parking brake is completely independent of the foot brake, operating on a drum of its own fastened to the propeller shaft. When the propeller shaft is locked, the wheels cannot turn. In many cars the parking brake operates on the two rear drums of the foot brake.

**Q** In face of the high cost of body repairs, why don't all cars have detachable fenders?

**A** It would seem that some manufacturers have sacrificed the practical for styling. All Dodge fenders are bolted on and are easily removed to facilitate replacement or repair.

**Q** How can I stop my gas lines from clogging with dirt and water?

**A** With most cars there's no sure way. You might try draining and cleaning out your tank from time to time. In cold weather always keep your tank well filled as this reduces the amount of condensation. With a 1951 Dodge, of course, you cannot experience this annoying trouble. The new Dodge is equipped with an Oilite fuel filter located in the gas tank which keeps the entire fuel system free from dirt and water. It's self-cleaning, too, from the swishing action of the gas in the tank.

**Q** Why is rear seat riding in some cars so tiring?

**A** That's because a low, sloped-back rear seat places you in an uncomfortable position without support under and behind the knees. Dodge chair-high seats, both front and rear, give you proper knee and back support—let you ride long distances in comfort.

**Q** Is there any real difference in the various types of air cleaners?

**A** Yes, there are vast differences. For example, all Dodge cars use a heavy-duty oil-bath air cleaner. In "dust storm" tests, this type cleaner proved much more efficient than ordinary mesh-type filters even at the start. And, after 2,000 miles of driving it proved to be still 98% efficient, or nearly double that of other types of cleaners.

**Q** Should I buy a set of the special tires or tubes advertised as protection against blowout?

**A** Many motorists would not be without them. Dodge owners, however, have an exceptional safety factor in "Safety Rim" wheels. Protective ridges on these wheels hold the standard tire in place in case of tire failure, reduce the danger of loss of control and allow safe, straight stops.

**Q** Why do my windshield wipers slow down and sometimes stop working when I accelerate my engine—often when I need them most?

**A** That's a little technical but here's the answer in simplest terms. Your wiper is a vacuum type, operated from the vacuum in the intake manifold. This vacuum is highest when the engine is idling—lowest when the engine is under full load, such as when you call for fast acceleration, so your vacuum wipers slow down. With the new Dodge cars you do not experience this trouble as they are equipped with constant-speed electric windshield wipers.

**Q** How can I best protect my engine from the dirt and abrasives which collect in the oil?

**A** You should install an efficient oil filter, if your car is not so equipped. Not only are all Dodge Coronet and Regent models equipped with a highly efficient Micronic Oil Filter as standard equipment, but all Dodge models give you added protection with a Floating Oil Intake. This type of intake draws only the clean oil from just below the surface, preventing both surface foam and bottom sludge from entering the oil lines.

THESE ARE SOME OF THE REASONS FOR

## MORTGAGE LOANS

IF YOU contemplate selling your home or any other type of property, give us all the particulars as we can arrange for your buyer or a buyer of ours who has at least two-thirds cash, a loan for the balance through us providing all cash to you for your home and therefore simplifying a quick sale of your property. Box 88, Edmonton Sun. CS-24-TF-R

FOR SALE—new concrete business building, good district, modernistic in every feature. Full utilities, showing a guaranteed minimum return of \$12,000 in 10 years in minimum rental only. Owner must sacrifice now for \$9,500, one-third to half cash, balance easy terms of \$30 per month. This building will be just as good 10 years from now as it is today as there is very little woodwork to deteriorate. Will accept '50 or '51 model car in on trade, truck or tractor or what have you, or lots if in good district. Apply Box 71, 0815-52 Ave., Edmonton. CS-24-TF-R

## BUSINESS OPPORTUNITIES AND HOTELS WANTED

WANTED at once or after harvest a fair sized country hotel or business block. Please give full details first letter showing gross revenue and net revenue, total sales and purchases. Must definitely be self-sustaining property and in a good district and a money-maker to merit inspection and quick sale. Not interested in few cents on investment, must provide good interest on investment as well as salary for the purchaser. Reply in confidence to Box 67, Edmonton Sun. CS-24-0-6-R

## BUSINESS OPPORTUNITIES

Grand opportunity to secure at minimum low price a Ladies' and Children's dress goods shop handling many exclusive lines. Very high dividends on the investment and business better day by day. Business started by present owner, 2 years ago, with a profit of \$4,000 to \$5,000 first year, last year's profit between \$9,000 and \$10,000, this year who knows, but step in now and obtain this business quickly as it is available to us to sell for 10 days for \$11,500 including stock. Building is rented, low overhead. Inquire now this will provide you a salary and large dividends on the investment and maintain a home for you besides. Suitable for 2 girls or young couple. Box 69, Edmonton Sun. CS-28-0-1-3-R

PARTNER wanted, approximately \$4,000 to \$5,000 expansion capital required. Preferably investor interested in contracting, machine and welding shop work, more especially sheet metal installation. Applicant to share 1/4 interest in the business if silent partner with 1/4 of the profits deriving therefrom or if applicant will take active participation, he will benefit by receiving 1/2 interest in the profits therefrom. Some very large contracts in the offing and majority of the money needed for paying the usual 10% bond deposit required on large contracts. This is not interest on your money, but share on profits which is very substantial and should return 100% or more on the investment every year. Inquire at Box 72, 10815 - 52 Ave., Edmonton. CS-24-TF-R

## BUSINESSES

MALE Help and Business Opportunity. Master Plumber wanted. Excellent opportunity for a good plumber to get into business for himself and work in on contracts in conjunction with established Sheet Metal and Heating Shop. Large contracts available for the right man in a district of the City of Edmonton where there is absolutely no opposition for a mile and a half. \$500 or \$600 investment required. Box 64 Edmonton Sun. CS-24-TF-R

ONE of the best Machine and Welding Shops in Alberta, including John Deere and other allied agencies available at once. Owner has made good money here, and is purchasing a business twice the size in another town for 3 times the money. You can secure this now at a sacrifice price to close out which is much below value for \$12,000, including stock and equipment being that the owner is this much short of his objective in purchasing the other property. This is a real sacrifice and includes the building 30x80, consisting of shop, stock and show rooms and a beautiful well landscaped home. Not far from city in one of the best mixed farming districts. Act at once on this. Box 73, 10815-52 Ave., Edmonton. CS-24-TF-R

## FARM WANTED

Wanted, choice farm close to city. The farm we select must be bordering on or close to highway. Must have choice soil, level and have an exceptionally good producing record and be a good value on a nearly all cash deal. Either choice grain farm or very high grade mixed farm. Buyer wishes to raise and breed some good livestock and have ample water supply and on electricity if possible. Choice buildings and residence essential or if no buildings must be or such a choice location and self-sustaining and at a price that purchaser could afford to build his own buildings. Purchaser may buy with or without power machinery. Preferably fenced with shelter belts. Write us immediately, it is worth your while and time well spent. This is a good cash deal for somebody. Purchaser also has lovely city home, willing to throw in on purchase price. Box 70, Edmonton Sun. CS-28-TF-R

ATTRACTIVE FARM, PRICED TO SELL, OWNER RETIRES, PART TRADE ON CITY HOME STRAIGHT SALE, CASH OR TERMS

Very nice quarter, close city, mostly black surface. Very convenient, facilities, complete with or without power equipment, nearly all broken, majority in crop, plus hay and pasture, plus summerfallow, black loam, level, 3 good wells, abundant water, lovely drinking water, electric lights, fenced and cross fenced. Close town and elevators, R. route, school and church close. Nice comfy brick home, several barns and several outbuildings. Taxes very easy. Never been crop failure. Crop to be agreed on if immediate possession. Owner retiring, might consider some other type of trade if revenue bearing or acreage. Farm is priced at \$3,000 below cost to owner, but owner not well and must move. First \$27,500 takes it complete with tractor and combine in good new fall condition and other power equipment. Can accept two-thirds cash, balance crop payment. Alberta Business Locators, 115 LaFleche Bldg., 10045 102 Street. CS-24-TF-R

ATTRACTIVE OFFERINGS ALL UNDISPUTED BARGAINS COMPLETE WITH CROP IF SOLD WITHIN 10 DAYS

A few beautiful hand selected very choice High Grade Improved farms, most all with lovely homes and planted shelter belts and landscaped yards. On all-weather highways, which have proven high revenue crop producing records as well as high revenue producing Live Stock records, all selected have no less than \$12,000 in buildings thereon and some with buildings worth much more. All fenced and cross fenced, many with running water, or abundance of water, otherwise, nearly all include this year's crop, total crop if harvested by purchaser, all Prolific Growth much better than average, even this year, when the season was 3 months later than usual; coupled with an exceptional long dry spell. None of these have ever had hail. Two of these farms are partly on choice river bottom land. Many on Calgary Power, some with bathrooms and toilets on both floors, with exception of two. All are 20 minutes' to 30 minutes' drive to city, winter or summer to Edmonton Post Office and mostly all on daily bus service to city. All power equipment in first class condition if equipment wanted, can be lumped together at addition as, but reduced price to purchaser of farm). Two stock farms are complete with all beef cattle and hundreds of cows included. In many cases owners have other pending interests and some will accept other type of properties or smaller farm or acreage in trade and balance cash. Schools, stores, churches, elevators, no more than 8 miles and many within 1 1/2 miles to 2 1/2 miles. School buses serve most of them. Alberta Business Locators 115 LaFleche Bldg., 10045 102 St. CS-24-TF-R

classes at branch and country matches, and plowmen from other provinces and countries may compete. Previous Trans-Atlantic winners will not be eligible.

Winners of the contest will be given an all-expenses-paid overseas trip and gold medals in both classes—horse and tractor plowmen.

During their trip to the United Kingdom, winners will be guests of Imperial Oil; they will take part in Old Country plowing matches, visit outstanding farms and livestock stations and see many historic sites and places of interest. They will be accompanied by a team manager appointed by the Ontario Plowmen's Association. The tour will take about a month and include a short stay in New York City and possibly some countries on the continent.

Second prize winners in the Trans-Atlantic will each receive a silver medal and \$150.00 in cash. Twelve other cash prizes will be awarded in each class.

W. R. Bullock is president of the Ontario Plowmen's Association, who are the sponsors.

The official opening of this match is Oct. 10, when the Hon. Thomas L. Kennedy, Ontario minister of agriculture, will be guest speaker at a special ceremony.

Prime Minister Louis St. Laurent will be guest speaker at a banquet in the Woodstock Arena on the twelfth when prizes will be awarded.

This is an excellent opportunity for Alberta farmers to show Ontario and other provinces that they are right on the bit when it comes to plowing.

## British Technicians Told Leave Iran

TEHRAN. — (BUP) — British oil technicians at Abadan have been given 10 days to sign contracts with the National Iranian Oil Company.

If they refuse to sign, an Iranian spokesman said they face expulsion from the country.

The ultimatum followed the latest rejection by the British government of overtures by the Iranian government for resuming the bitter oil dispute which has closed down the giant oil fields.

## REAL ESTATE

FOR THAT HOME, farm or business you have been looking for get in touch with us immediately. We have listings to meet almost every need and purse. All properties listed are in one of the best and most prosperous farming districts in Alberta. Harold Grigg Agency, Mayerthorpe, Alta. C-17

## HOTEL FOR SALE

Owner will consider selling hotel in a first class town. Owner not retiring, just wishes to make a change. Owner will stay if he has a working active partner to assist and sell one-third interest to active partner with one-third of the profits derived therefrom which makes 15 to 30 thousand per year, or will sell entire 100% interest to one or more partners. Large sales and large room revenue, large cash revenue. \$175,000 takes all. Reply in confidence, all replies answered and must be bona fide inquiries. Principals only. Box 65, Edmonton Sun. CS-24-0-6-R

## SUBURBAN PROPERTY

FOR SALE—Approximately 3 acres with very nice home and with permanent income on the side which will provide several hundred dollars per month to the purchaser who is interested in poultry and eggs. 3 decker building for poultry already on site with approximately 1,000 birds and space and facilities for several thousand more. Reason selling, owner aged and not well and cannot handle. Splendid opportunity for young couple for a business of their own even though working at something else. This is a bargain at \$15,000, will accept small place or city home as part trade or give any wide awake young couple any terms with at least two-thirds cash. Box 100, Edmonton Sun. CS-24-TF-R

## REVENUE PROPERTY WANTED

## Clothing Argument Traced Back To Biblical Times

CALGARY. — (BUP) — Arguments about clothing styles are commonplace nowadays, but a Bible on display in Calgary may be the original source of argument about who wore what.

The King James version of the Bible says that Adam and Eve wore fig leaves when they first donned clothing, but the Bible in the Calgary public library says they wore breeches.

The old Bible, printed in 1615, was loaned to the library by John L. Ward of Calgary, Alta. He said it had been in his family for many generations.

It is known as the "Breeches Bible," because of the manner in which it differs from the modern version.

### LABOR CONGRESS

WINNIPEG (BUP)—The Trades and Labor Congress will hold its next convention in Winnipeg on August 18, 1952.

The convention, which probably will be attended by some 600 delegates, will be held in the civic auditorium.

In 1821 Russia claimed the west coast of North America as far south as the 51st degree of latitude, territory which is now Alaska and British Columbia.

## Troops In North Good News For

CALGARY, Alta. — (BUP) — A scientific party that has arrived here after spending three months in the Far North had good news today for future Arctic soldiers. Such things as mosquitoes and other biting insects will not bother

them.

The party consisted of government entomologist James Chillicott and Aylward Downe, a local science student.

Chillicott and Downe made their studies at Spence Bay, 300 miles north of the Arctic Circle on

Booths Peninsula. During their studies, which were made while living chiefly as do the Eskimos in the area, they found an unusually great amount of insect life. They said, however, that there were very few species in the North that were harmful to man.

The Chinese language and its dialects are used by nearly 500 million people. The English language by a little more than 270 million.

## PROTECT YOUR CROP INVESTMENT BY WINDROWING THE McCORMICK-DEERING WAY

To prevent any damage to your grain crop from weather, insects, weeds or moisture, windrowing before threshing is certainly a step forward in farming practices—especially when done the McCormick-Deering way!

The No. 120 Windrower (12 or 15-foot size) handles the grain quickly and easily in its smooth operation. Adjusts to crops of all heights. Completely power-driven, it has the light draft that comes from use of numerous ball and roller bearings, and gears running in oil. The No. 6, in 6 and 8-foot sizes, is built for use on smaller acreages.

You'll probably agree with us that windrowing can mean a better grade of grain under many conditions...and now we'd like to point out how well a McCormick-Deering Windrower can do this job for you. Stop by next time you're in town.

Low-built windrower bends stubble.

Grain laid like lattice on rising stubble.

Offground windrow permits free air circulation.

Here are some car features that you'll quickly recognize as "quality features". They're the kind of features you'd expect only in high-priced cars. Now let's see who offers these features as standard equipment, among the cars in Plymouth's price class!

Here are Plymouth's

# "yes" or "no"

answers on value in the lowest-priced field

This is only the beginning of the Plymouth Value story! Your Plymouth dealer has the new Quality Chart showing many more of Plymouth's big-car Quality Features. Let him show you how Plymouth gives you 19 out of 20 of these big-car features while car "A" gives you 11—and, car "B" only 5! He'll show you what these features mean in extra Comfort, Safety and Performance. And, as a final test—he'll ask you to drive Plymouth! Then, you'll find Plymouth rides like a big car because it's big-car-built—to serve you better!

VALUE FEATURE	PLYMOUTH CRANROCK	CAR "A"	CAR "B"
SAFETY-RIM WHEELS hold tires firmly on rim in case of blowouts. A valued safety feature.	yes	no	no
CHAIR-HEIGHT SEATS at least 15 1/2" high for erect, natural posture and full support.	yes	no	no
OIL FILTER filters abrasives out of oil—an important contribution to Plymouth's long engine life.	yes	no	no
ELECTRIC WINDSHIELD WIPERS Unlike the vacuum type, they don't slow down when you step on the gas.	yes	no	no
SPLASH-PROOF IGNITION SHIELDING assures quick, sure starts in damp weather—avoids stalling on flooded streets.	yes	no	no
IGNITION-KEY STARTING WITH AUTOMATIC CHOKE Eliminates over-choking. Just turn the key—the engine starts.	yes	no	no
SIX-CYLINDER BRAKES Two extra hydraulic cylinders at the front wheels give you better, more certain control.	yes	no	no
FLOATING OIL INTAKE Floats just below the surface of oil in crankcase, so draws only the cleanest oil.	yes	no	no
CHAIN-CAMSHAFT DRIVE Has more contact area than the direct gear-type, so wears less and runs quieter.	yes	no	no
FLOATING POWER A way of mounting the engine so it's balanced and cushioned for extra smoothness.	yes	no	no
OILITE FUEL FILTER Keeps water as well as dirt from entering fuel lines. Self-cleaning.	yes	no	no
INDEPENDENT PARKING BRAKE A separate system from the service brakes—gives you an extra margin of safety.	yes	no	no
